

# Protect Your Investment.

Designed and manufactured in Canada by industry professionals to help prevent attacks on your assets.

## Standard ATM vaults are only Business Hours rated.

This standard does not prevent attackers from prying or hammering the door open.

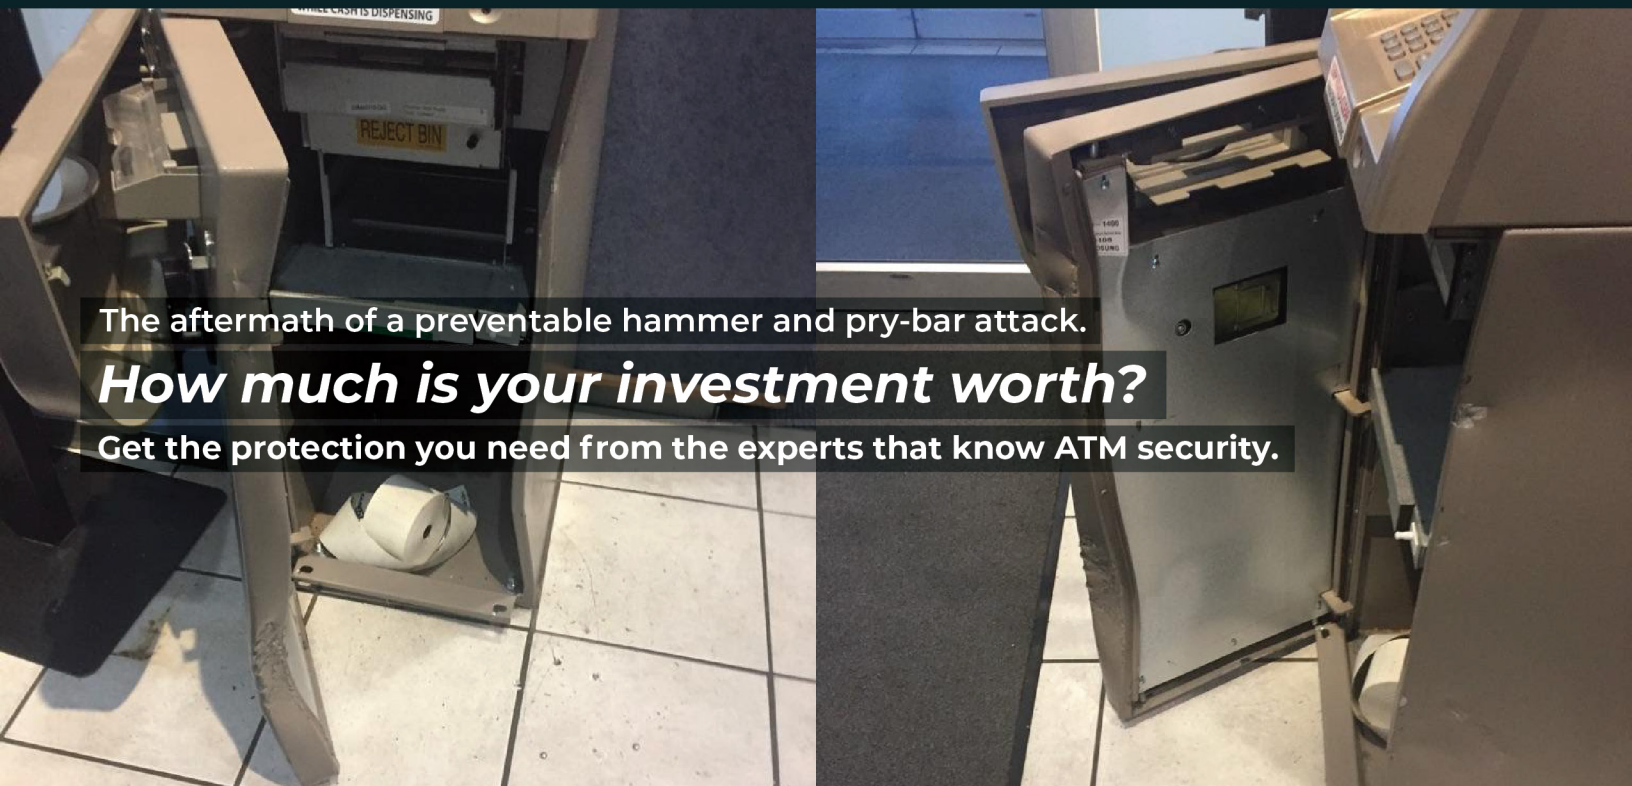

**The Gator** adds an extra layer of protection forcing attackers to rethink their strategy. Let's face it, if you're making a criminal think, you've likely prevented an attack already.

# Stop criminals before they start with the powerful jaws of *The Gator*.

- Canadian manufactured and engineered
- Stops physical attacks
- Stops smash and grabs
- Increases ATM vault rating
- Lowers insurance costs
- Offer protection against cutting, Oxy and drill attacks
- Individually keyed puck locks
- Recessed carriage bolts
- Double plated, hardened steel construction

## Security Level: *Elevated.*

The aftermath of a preventable hammer and pry-bar attack.

### *How much is your investment worth?*

Get the protection you need from the experts that know ATM security.
